

NYANDARUA FARMER FIELD DAY

17 Dec 2025

Prepared by: [Your Name/Organization]

Join Egerton University's AGRA-KSPI Project partners for an informative and interactive Field Day in Nyandarua County focusing on practical demonstrations of Climate-Smart Agricultural Technologies, Innovations, and Management Practices (CS-TIMPs) aimed at improving productivity and resilience in the potato subsector. Come learn about the latest validated solutions for optimal seed potato management, efficient dairy feed practices, and strategies to climate-proof your farming enterprise, all while connecting with experts.
